

HOME LEARNING

Week 1 – Monday 1st June – Friday 5th June 2020

Here is our 'Week 1 Nursery Home Learning Resource', with suggested activities to support a progression in your child's learning throughout the second half of the summer term.

Please feel free to adjust activities to fit your child's individual interest and continue to carry out other home learning activities as they arise in daily life and play. We will enjoy seeing how you are getting on, so please keep sharing your learning via Tapestry or email.

Play the game 'Which one doesn't belong?' (see resources) <i>Find odd one out</i> 	Go on a colour hunt around your house/garden/local area. Record what you find - you could take pictures or make a list. 	Make a car park. Number each car parking space with a different number and then label up your cars. Can you recognise and match up the numbers? 
Make a shape on the floor. Look around your home for objects and sort them into the correct shapes. Name and talk about the shapes as you go. GIANT Shape Sort 	Think about feelings – can you complete the things that make me happy sheet together. As you do so you can also discuss things which may make you worried or sad too. 	Name writing – continue to practise writing your own name – you could do this in sand, on paper, with paint or in any creative way you would like to. 
Explore musical instruments – you may have some at home you could explore or make your own shakers etc. You could even use a wooden spoon and explore the different noises objects make around your home/garden by tapping them. 	Read the Goldilocks and the Three Bears story and talk about it together. Sing the Goldilocks song: https://www.youtube.com/watch?v=PFXE3zvXbjc Think about the size language as you sing. 	Spot the difference – see if you can spot all ten differences in the bear picture. 
Create your own teddy bears picnic at home. Can you help to make the picnic and set it up with your favourite teddy bears? Do lots of counting along the way. How many bears are coming? How many cups do you need? 	Can you order your teddy bears from the biggest one to the smallest one? Can you order other objects from around your home in size order and use size language to describe the size of the objects? 	Make a card or invitation to invite a friend or family member to your picnic (they could then join you virtually via video call for some cake and tea).
