

HOME LEARNING

Week 2 - Monday 8th June - Friday 12th June 2020

Here is our 'Week 2 Nursery Home Learning Resource' with suggested activities to support a progression in your child's learning throughout the second half of the summer term.

Please feel free to adjust activities to fit your child's individual interests and continue to carry out other home learning activities as they arise in daily life and play. We will enjoy seeing how you are getting on, so please keep sharing your learning via Tapestry or email.

Play the 'Oh what a Silly Picture' game (see resources). 	Make an obstacle course in the garden. Take turns as a family to complete the course. 	Make a list of all of the living things you can find in your garden. You could draw a picture of each thing you find (butterfly, worm, robin...) 
Bake some banana bread as a yummy treat (see resources for an 'all in one' easy recipe). 	Draw a race track to race your cars along. Zig Zags and winding roads will really help to strengthen those fine motor skills. 	Complete some under the sea pencil control activities (see resource). 
Have a go at size ordering the fish from the smallest to the biggest and talk about their size (see resource). 	Play some paddling pool games. Could you fill the pool with fish and pretend to go fishing for different amounts of fish or use different coloured balls and focus on colour? 	Doodle all over old card and paper. If you have any lining paper to roll out across the garden, this is great. Use lots of different pens and make marks everywhere! 
Sing a range of nursery rhymes together daily. See if you can sing three different ones each day so across the week you build up quite a bank of songs. 	Role play doctors. This could be inspired by reading or watching Zog by Julia Donaldson. At the end, the characters become flying doctors. You could fly around the house and garden as the new doctor. 	Complete a jigsaw.
