

How to use the "Which one does not belong?" cards

This game will improve your child's vocabulary, word retrieval and classification skills.

1. Ask your child to say the name of each picture.
2. Ask your child, "Which picture does not belong? Tell me why it does not belong."

For example: if picture shows a strawberry, an apple, a banana and a piece of cake, an appropriate response would be a strawberry, an apple, a banana, cake. The piece of cake does not belong because a strawberry, an apple and a banana are (kinds of fruit) fruits. A piece of cake is not a fruit.
